PROFILE STATEMENT

Full-Stack Engineer, Specialized in Backend development

As a dedicated backend developer, I bring a robust skill set in the realms of programming languages such as Python, Django, C and SQL. My passion lies in creating efficient and scalable solutions to drive the technical backbone of applications. With a proven track record of developing backend systems, I leverage my expertise to ensure optimal functionality and performance. Proficiency in crafting code that seamlessly integrates with databases and enhances overall application efficiency. Skilled in creating tailored tools and scripts to streamline workflows, I am committed to delivering cutting-edge solutions that elevate the technical aspects of software development.

Skills and software proficiency
