Cell: (+234) 807475436

An enthusiastic full-stack developer with a 2+ years of experience in Python, SQL, and Django. Proficient in building efficient and scalable back-end systems. Looking for an opportunity to apply my skills and contribute to team-based projects.

RELEVANT SKILLS

- Exceptional communication and listening skills
 - Proficiency with Git, GitHub, Visual Studio, Excel and MySQL
 - Expertise in Python, Django, flask and modern front-end frameworks
 - Strong problem solving and debugging abilities
 - Adept at Optimizing web application performance and scalability
 - Skilled in developing reusable components to streamline development processes
-

INTERNSHIPS

Fronted Developer Intern, Obtibri *Limited*

2023-2024

- Assisted in developing and maintaining web applications using HTML, CSS.
 - Utilized Git for version control and code management.
 - Contributed to debugging and troubleshooting code, ensuring smoother performance
 - Learning from my partners and cohorts, Observing team dynamics, Collaborating with the team on small projects, gaining hands on experience in cloud computing and DevOps processes.
-

EXTERNSHIPS

Cowrywise Student Ambassadors, *Cowrywise*

2024 - present

- Promoted financial literacy by sharing information about Cowrywise services to students.
 - Planning workshops and interactive sessions to educate peers on effective financial planning and budgeting.
 - Collaborating with the Cowrywise team to drive student engagement and encourage adoption of savings practice
 - Developing strategies to foster awareness about financial independence and responsible money management.
-

PERSONAL PROJECTS

Discussion Forum App(OpenSpace)

April 2024

- Developed a full-stack discussion forum application, enabling users to create, view, and participate in topic-based discussions.
- Implemented user authentication, allowing secure sign-ups, logins, and profile management.
- Designed a responsive user interface with features such as thread creation, comment sections, and user profiles.

[Repository](#)

To-Do List App

May 2024

- Developed a user-friendly to-do list application for managing tasks and daily activities.

- Implemented features such as task creation, editing, prioritization, and categorization to enhance productivity.
- Designed a clean, responsive user interface that allows users to easily track and manage their tasks.
- Built a back-end system to store and retrieve tasks, ensuring data persistence and reliability.

[Repository](#)

Food Store app(Little Lemon)

July 2024

- Created a basic food store application as part of the Meta course curriculum.
- Implemented core functionalities for browsing and managing food items.

CERTIFICATIONS

Meta Back-End Developer Professional Professional Certificate, Programming in Python, Meta

May 2024 — July 2024

- Developed a strong foundation in back-end development, focusing on Python programming.
- Gained expertise in building, testing, and deploying back-end applications.
- Acquired skills in database management, API development, and cloud computing.

[Verify](#)

Meta Back-End Developer Professional Professional Certificate, Introduction to Back-End Development, Meta

May 2024 — July 2024

- Gained a comprehensive understanding of back-end development principles and technologies.

[Verify](#)

Meta Back-End Developer Professional Professional Certificate, Django Web Framework, Meta

May 2024 — July 2024

- Developed skills in creating dynamic websites with user authentication, database integration, and RESTful APIs.
- Gained experience in deploying Django projects to production environments, ensuring security and performance.

[Verify](#)

Meta Back-End Developer Professional Professional Certificate, Introduction to Databases for Back-End Development, Meta

May 2024 — July 2024

- Acquired fundamental knowledge of relational databases and their role in back-end development.
- Learned to design, implement, and manage databases using SQL.

[Verify](#)

Meta Back-End Developer Professional Professional Certificate, APIs, Meta

May 2024 — July 2024

- Gained expertise in designing, building, and consuming RESTful APIs for web applications.
- Developed skills in API authentication, versioning, and documentation.

[Verify](#)

Meta Back-End Developer Professional Professional Certificate, Version Control, Meta

May 2024 — July 2024

- Mastered version control systems, particularly Git, for managing and collaborating on code bases.
- Learned to track changes, resolve conflicts, and maintain code integrity across different development environments.
- Gained experience in branching, merging, and using Git workflows to streamline development processes.
